

Surgery Abroad: **Data Privacy Notice re Zed Doctor Platform**

Surgery Abroad utilises a medical grade platform known as Zed Doctor to enable the digital transfer of images and associated documents to medical colleagues abroad, to facilitate the planning and management of your potential surgical procedure.

The advantages of this platform include:

- Greater security and GDPR compliance
- Improved efficiency
- No CD's or paperwork

The security of your images and any associated medical documents is always protected and only those with explicit permission, as authorised by Surgery Abroad, can access it.

By consenting to having an account created for you, you consent to:

- Your medical images and associated medical documents to be uploaded to the Zed Doctor platform.
- The sharing of your imaging and associated documents with medical colleagues as specified by Surgery Abroad via the Zed Doctor platform.
- If the protection of your vital interest requires, your data may be further securely shared with other medical professionals.
- As required, your data may be imported to another PACS system for the purposes of a multi-disciplinary meeting (MDT), surgical planning etc.
- Your data will be automatically deleted from the Zed Doctor platform after a 12-month period and you will no longer have access to it.
